MEMORANDUM FOR: [redacted]
Executive Assistant to the DDCI

25X1

FROM: [redacted]
Chairman

25X1

SUBJECT: Capitol Hill Technical Security [redacted]

25X1

1. Attached are copies of my memorandum to the FBI member of SECOM dated 14 September 1982 and the FBI member's reply dated 30 September 1982. In my memorandum I asked that the FBI assume the lead in dealing with Legislative Branch officials in coordinating the program to enhance the technical security countermeasures capabilities of the US Capitol Police. I believe that the FBI response, after considerable discussion of the DCI's responsibilities, agrees to take over the task of dealing directly with Capitol Hill on this matter, provided the Intelligence Community continues to cooperate. By cooperation the Bureau apparently means that training for the Capitol Police will be conducted at the [redacted] and that other members of the Intelligence Community will continue to provide consultation and assistance, as arranged by the FBI. 2. I have arranged to meet with Mr. Dean, the FBI member, at 0900 on Wednesday, 6 October, along with the representatives of the Technical Security Countermeasures Subcommittee and the Chief, Legislative Liaison Division. We will discuss details of handing over the management of this program to the FBI.

3. At this point I need to be assured that the course of action which I have begun is satisfactory to the DDCI. Would you please try to get me a reading on whether the FBI's proposal for continued participation by the Intelligence Community in the program meets with his approval. [redacted]
